

# I learn to spot attacks in the logs before they spread.

Hi, I'm Mohamed Maher, a SOC Analyst trainee based in Egypt. I'm learning alert triage, log analysis, and the basics of digital forensics.

## Contact me

---

## About

I'm a Computer and Artificial Intelligence student interested in cybersecurity and security operations. I'm currently training in Cybersecurity Analysis and Incident Response through the Digital Egypt Pioneers Initiative (DEPI).

I'm familiar with security logs, SIEM concepts, network security, Linux, Windows, and basic security analysis. I want to build practical skills in SOC operations and incident response.

---

## What I'm learning

### Monitoring and analysis

Security logs, SIEM concepts, Splunk basics, basic security analysis

### Systems and networks

Linux, Windows, network security

### Operations and response

Cybersecurity fundamentals, cyber operations, incident response basics

### Platforms

TryHackMe, Cyberhaze, NetRiders, DEPI

## What I've completed

### TryHackMe: SOC Level 1

Status: In progress    Top 8% on TryHackMe

I'm working through the SOC Level 1 path: how analysts triage alerts, read logs, and investigate suspicious activity. So far I've covered Splunk basics.

Alert triage

Log analysis

SIEM

Splunk

### TryHackMe: Pre Security path

Status: Completed

Covered the basics: networking, how the web works, Linux, and Windows. This is the base for everything I'm learning now.

Networking

Linux

Windows

### CyberGo course (Cyberhaze)

Status: Completed

Covered cybersecurity fundamentals and cyber operations.

Cyber security fundamentals

### Digital Forensics basics (NetRiders)

Status: In progress

Learning how investigators collect and examine evidence after an incident. So far I've covered cyber operations topics.

Digital forensics

Evidence handling

## Next steps

|                                                            |             |
|------------------------------------------------------------|-------------|
| Finish TryHackMe SOC Level 1                               | In progress |
| Finish Digital Forensics basics (NetRiders)                | In progress |
| Build a small home lab and write up my first investigation | Planned     |

---

## Contact

Open to SOC analyst internships and training opportunities.
